Travel Tray – JPMA Innovation Award Finalist, March 21-24, 2018

Travel Tray is being recognized as an innovative, real-life solution that helps children become more self-sufficient so their parent drivers can stay focused on the road. Reaching into the back of the car while driving to steady your kids' toys, food and drinks is a real-life distracted driving problem. Travel Tray is made to slide into a standard cup holder, as well as children's cup holders that are found on car seats and booster seats. Children will have Travel Tray to hold and control their toys, food and drinks so they don't end up on the floor. Parents can use it in the front seat to hold their phone, food and drinks so they can stay focused on the road.

With distracted driving fatalities on the rise - You need more control and less chaos in your car

"This lifesaver has helped me stay focused on the road so I'm no longer fumbling around with my kids food putting myself, family and public in unsafe way. I love it because my kids love it...they control and know exactly where their snacks are." Anne, Mom of 3, San Diego

"I'm going on a road trip, GIVE ME MY TRAY BACK!" Karl, 62 yr old, no children, San Diego

With more than 250 million cars *plus* another 40 million kids car seats on USA roads, how can Travel Tray not be in existence prior to now? After extensive searching of stores, internet and patents we realized that a real all-in-one solution did not exist, so we created Travel Tray! Our patent pending universal design accommodates on-the-go cups and bottles, fitting inside all child cars seat cup holders as well as in standard and larger car cup holders. We have so much confidence it will fit and it will allow you and your kids to keep foods safe and secured – that we offer a money back guarantee.

Our mission is to ensure Travel Tray is safe for you and your family, so it is manufactured in the USA with BPA-free, FDA, CA-Prop65 approved materials and it is also environmentally friendly by being dishwasher safe.

"Once my family and I used Travel Tray we can't live without!" Megan, Mom of 2, Texas

That classic, "Where's this been my whole life?" type of feelling!

Travel Tray is headquartered, designed and manufactured in San Diego California. Additional information may be requested at Contact@TravelTray.us or 619-633-9808.
