**With distracted driving fatalities on the rise - You need more control and less chaos in your car**

"This lifesaver has helped me stay focused on the road so I'm no longer fumbling around with my kids food putting myself, family and public in unsafe way. I love it because my kids love it...they control and know exactly where their snacks are." Anne, Mom of 3, San Diego

"I'm going on a road trip, GIVE ME MY TRAY BACK!" Karl, 62 yr old, no children, San Diego

With more than 250 million cars *plus* another 40 million kids car seats on USA roads, how can Travel Tray not be in existence prior to now? After extensive searching of stores, internet and patents we realized that a real all-in-one solution did not exist, so we created Travel Tray! Our patent pending universal design accommodates on-the-go cups and bottles, fitting inside all child cars seat cup holders as well as in standard and larger car cup holders. We have so much confidence it will fit and it will allow you and your kids to keep foods safe and secured – that we offer a money back guarantee.

Our mission is to ensure Travel Tray is safe for you and your family, so it is manufactured in the USA with BPA-free and FDA approved materials and it is also environmentally friendly by being dishwasher safe.

Currently Travel Tray is launched on Kickstarter to gain grassroots support and to provide the limited first run Trays to our supporters by the end of October.

Shipments to retail stores and direct to consumers begin in November just in time for the Holiday season.

"Once my family and I used Travel Tray we can't live without!" Megan, Mom of 2, Texas

**100%**  
food safe

dishwasher safe  
on top rack

That classic, "Where's this been my whole life?" type of feelling!

Travel Tray is headquartered, designed and manufactured in San Diego California. Additional information may be requested at [Contact@TravelTray.us](mailto:Contact@TravelTray.us) or 619-633-9808.
