Travel Tray – Featured at LA Baby November 4 -5, 2017

Coming off a successful first launch to wholesalers/distributors at the ABC Expo in Las Vegas, and being featured last week on KTLA “Best of ABC Show” by Millennial Mom – Jenna Barnett, Travel Tray will now be featured and available to consumers directly for the first time at the LA Baby show this coming weekend at the Magic Box at the Reef. Alicia with Travel Tray responded “With so much initial demand it has been a bit overwhelming keeping up, but we are fortunate to manufacture in San Diego (USA) allowing us to keep up with the demand”.

With distracted driving fatalities on the rise - You need more control and less chaos in your car

“This lifesaver has helped me stay focused on the road so I’m no longer fumbling around with my kids food putting myself, family and public in unsafe way. I love it because my kids love it...they control and know exactly where their snacks are.” Anne, Mom of 3, San Diego

“I’m going on a road trip, GIVE ME MY TRAY BACK!” Karl, 62 yr old, no children, San Diego

With more than 250 million cars *plus* another 40 million kids car seats on USA roads, how can Travel Tray not be in existence prior to now? After extensive searching of stores, internet and patents we realized that a real all-in-one solution did not exist, so we created Travel Tray! Our patent pending universal design accommodates on-the-go cups and bottles, fitting inside all child cars seat cup holders as well as in standard and larger car cup holders. We have so much confidence it will fit and it will allow you and your kids to keep foods safe and secured – that we offer a money back guarantee.

Our mission is to ensure Travel Tray is safe for you and your family, so it is manufactured in the USA with BPA-free, FDA, CA-Prop65 approved materials and it is also environmentally friendly by being dishwasher safe.

“Once my family and I used Travel Tray we can’t live without!” Megan, Mom of 2, Texas

That classic, “Where’s this been my whole life?” type of feeling!

Travel Tray is headquartered, designed and manufactured in San Diego California. Additional information may be requested at Contact@TravelTray.us or 619-633-9808.
