Travel Tray – Temecula CA Showcase, Dec 2017

Travel Tray has been selected to showcase in the Promenade Mall located in Temecula CA , right in front of the Great Santa Tree through the end of December. Since launching eight weeks ago, Travel Tray was recognized and featured on KTLA “Best of the ABC Show” by Millennial Mom – Jenna Barnett, received major accolades during the LA Baby show and joined Stars and Troops at Fave Parenting ThanksNGiving for our Troops! Alicia with Travel Tray responded “Demand remains overwhelming, it is fortunate we manufacture in San Diego (USA) allowing us to better keep up with the demand”.

With distracted driving fatalities on the rise - You need more control and less chaos in your car

‘If you’re a parent to a toddler, you know how difficult (and messy) it can be to feed your independent eater. Self-learning is made easier with Travel Tray, allowing your wee one to better navigate snack time (and toy time) while you stay focused on the road.’ -Pregnancy & Newborn Magazine

‘This is one of those stupidly simple yet utterly brilliant creations you’ll wish had been invented sooner. Pop this plastic piece into any cup holder in your car seat or vehicle, and voila! Your kid has a sturdy, contained place for snacks (and toys) within easy reach — keeping errant Cheerios and tantrums out of your car and your eyes on the road.’ -She Knows

With more than 250 million cars *plus* another 40 million kids car seats on USA roads, how can Travel Tray not be in existence prior to now? After extensive searching of stores, internet and patents we realized that a real all-in-one solution did not exist, so we created Travel Tray! Our patent pending universal design accommodates on-the-go cups and bottles, fitting inside all child cars seat cup holders as well as in standard and larger car cup holders. We have so much confidence it will fit and it will allow you and your kids to keep foods safe and secured – that we offer a money back guarantee.

Our mission is to ensure Travel Tray is safe for you and your family, so it is manufactured in the USA with BPA-free, FDA, CA-Prop65 approved materials and it is also environmentally friendly by being dishwasher safe.

“Once my family and I used Travel Tray we can’t live without!” Megan, Mom of 2, Texas

100%
food safe

That classic, “Where’s this been my whole life?” type of feelling!

Travel Tray is headquartered, designed and manufactured in San Diego California. Additional information may be requested at Contact@TravelTray.us or 619-997-0129.
